DR GARGI ROY GOSWAMI

Chairman's Message

"Science is interdisciplinary and not discrete. The true essence of research, innovation and its applications is meaningful only through collaborative multidisciplinary approach that caters to solve a societal problem. With a vision to bring academics, industry and clinical applications under one roof, the saliva meet in India (SALSI) was pioneered through our academic endeavors in 2019, in collaboration with Oasis Diagnostics, USA. SALSI 2022 is the second virtual saliva meet on the global calendar.

I welcome every science enthusiast to be a part of this scientific revolution to explore the world class technological advancements, opportunities to collaborate and find newer career opportunities. I am thankful to organisations like Thermofisher Scientific, India and Dentsply Sirona for supporting our past meetings."
